

Advanced Cycleway Design for Intersections

Christchurch, 17 October 2017

ViaStrada are offering a one-day Advanced Planning and Design for Cycling workshop in Christchurch this October. This workshop is aimed at designers tasked with delivering cycleways with intersection treatments. Ideally participants will be familiar with the fundamental aspects of simple cycleway design and/or intersection design. This interactive workshop will look at how to incorporate various cycleway styles (protected, on-road painted, shared street) with different intersection styles (signalised, roundabout, priority). For each topic, participants will be given a brief overview presentation, a group design exercise to work on, and an opportunity to discuss the findings at the end.

Workshop details

Venue: Rydges Hotel, 30 Latimer Square, Christchurch

Duration: Please arrive at **9.15 a.m.** for registration
Course starts at 9.30 a.m. and finishes at **4:30 p.m.**

We provide: Full course material, plans, pens and pads, morning tea, lunch and afternoon tea.

Fees (inclusive of GST)
