

**VIASTRADA**  
TRANSPORT PLANNING AND DESIGN

# Senior Transportation Engineer

Help deliver safer, more innovative transport choices for everyone.

**ViaStrada** is a special transport consultancy based in Christchurch. We bring expertise in transport planning, traffic engineering, and road safety, working with clients across all levels of government and the private sector throughout New Zealand and into Australia. Our work is driven by a commitment to enriching communities and protecting the environment through practical, forward-thinking design and evidence-based solutions.

This is an exciting opportunity for an **experienced transport professional** to contribute across a wide range of projects, including traffic engineering, infrastructure design, research & investigation, safety & data analysis, and client and stakeholder engagement.

*We also wish to hear from those interested in opportunities for future company shareholding and profit sharing.*

**Permanent position - 0.8 - 1.0 FTE (32-40 hours p/w)**

**Salary range: \$110k - \$130k + benefits | based on experience**

**Location:** Based in our Christchurch office, with the flexibility to work from home as required

**Benefits of joining ViaStrada**

**Ideal candidate essential criteria:**

Enjoy our beautiful work environment in a heritage building on the Avon River, yoga studio next door and the best café and pub in the city downstairs.

- Bachelors (Hons) degree in Engineering
- Min. 5 yrs experience in road/intersection design, road safety, transport operations, traffic engineering
- Proficiency in English, excellent reading/writing skills, supported by example reports
- Capable of conducting site fieldwork, including by walking and cycling
- Current full drivers licence

We operate a profitable and sustainable business whilst maintaining work-life balance. We offer:

**Desired skills/experience/proficiency:**

- Competitive salary and benefits including mobile phone, home office equipment, with generous leave, health and well-being allowances
- Active transport allowance (walk, bus, cycle)
- Extensive professional development support including all costs to attend at least one conference per year
- Flexible working arrangements
- A supportive, inclusive and friendly workplace culture and mentorship

- At least 10 yrs industry experience
- AutoCAD, Revit, Civil 3D, GIS
- MS Office suite of programs including advanced Excel
- NZTA Crash Analysis System (CAS), Mega Maps
- Safety auditing and/or Safe System Assessments
- NZTA's Business Case process; and application of *Monetised Benefits and Costs Manual*
- Civil infrastructure design, specification, contracts

If you're ready to join a team that's going places, we'd love to hear from you!
